15. REGULATORY INFORMATION

Per OSHA 29CFR1910.1200, Commonwealth of Australia [NOHSC:1005, 1008(1999)] and the latest amendments to the European Union Directives 67/548/EC and 1999/45/EC, this product and its components do not require a Material Safety Data Sheet (MSDS). They do not contain more than 1% of a component classified as hazardous and do not contain more than 0.1% of a component classified as carcinogenic. Therefore **metabion** does not provide a standard MSDS – neither for the product, nor for its components.

However, when working with these or any chemical reagents, we always recommend the use of gloves, lab coats, and eye protection. Obey generally accepted and specific laboratory safety procedures and rules at your workplace. **metabion** assumes no liability for damage resulting from handling or contact with these products.

If you have any questions, please contact your metabion customer service team (customerservice@metabion.com)
