

Dear Valued Customer,

Our proclaimed year of recovery from the widely traumatic pandemic 2020 experience is drawing to a close, and we all – members of our respective local and global communities - have been facing quite a number of setbacks in fighting “the virus” and getting the spread of SARS-CoV-2 and its variants under control. And while we wished that feeling of recovery had been more evident throughout the year, the upcoming “grand finale” – Advent and festive Christmas/New Year Season - shall make the difference to last year’s state of mind and state of “pandemic affairs”. There is well-founded hope, that the pandemic will transition into endemic infection events, and be kept under control by vaccination and drug programs in place and/or to be launched. And ... most of us will be able to celebrate Christmas and the arrival of the New Year with a rather unrestricted number of loved people under less restrictive regulations than last year – we are recovering ...

We here at metabion are all looking forward to our annual break starting on December 24th, 2021, and ending on January 2nd, 2022.

Our last shipping day 2021 will be Dec 23rd. The first regular day of production operations in 2022 will be January 3rd.

Needless to say that placing orders with metabion will be possible and most welcome any time during our holidays.

Regarding order processing and shipping until Dec 23rd, 2021, we'd be happy to "schedule" your orders & deliveries for the remainder of this year in close cooperation with you.

Should you have special wishes for delivery at the beginning of the new year, please don't hesitate to inform us accordingly.

We cannot thank you enough for being with us throughout this "year of recovery". Looking forward to a year of unrestricted activity and good health!

Merry Christmas and a Happy New Year – OUR VERY BEST for 2022 and beyond

Your metabion team
